

Cornell University

Grade 4 Math & Science

Mjones@queencity.edu

Science - so far we have been

- ♦ Experimenting using FOSS water kits.
- ♦ Exploring space through mimio lessons.
- ♦ Identifying matter by its physical properties and viewing matter as it undergoes physical and chemical changes.
- ♦ Developing models of 'The Water Cycle' and studying its relationship to weather.

Failure is NOT an option!

Math

- ♦ The curriculum focuses on numeration and computation without neglecting geometry, data, and algebraic thinking.
- ♦ Learning multiplication tables is the key to a good foundation.
- ♦ Students take pride when achieving the high expectations of this class.
- ♦ We will be able to divide because 'Dave Made Scrumptious Canadian Bacon'

Please see that students have all necessary supplies for class.

Check planners daily for notices and homework assignments.
