June 20, 2017

Dear Parents and Guardians,

This year marks QCACS' 4th year of successfully implementing Google Apps for Education (now known as G Suite) for students! At the beginning of this school year, the students in grades K to 8 were issued a QCACS student account username and password. The account provided students a way to access their work from devices at school and at home. G Suite is cloud-based, meaning that students can access their work as long as there is an internet connection.

As it was during winter and spring breaks, students will have access to their accounts while school is not in session over the summer break. The same expectations exist for the appropriate use of technology, cyber safety, online etiquette, and adherence to the school's Acceptable Use Policy (AUP).

Students should only use their QCACS G Suite accounts for school-related work.

Please contact the main office if you need further information.

Sincerely,

Lauriene Tschang
Technology Coordinator

Note: Students exiting grade 8 have received information about the close-out and termination of their account.
